REMARKS

The figures of births and deaths of India shown in this statement for week ending the 3rd November, 1956 relate to 217 towns with an estimated population of 31,931 thousands. Information about Madhya Pradesh could not be included. The total number of towns is 318 and their population is 41,584. Thus 68% of the total number of towns representing 77% of the total population is covered in this state-

ment. The number of births and deaths recorded in these towns were 18,191 and 6,817 representing birth and death rates of 29.6 and 11.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States.
